D E W Haven  
918 Pond Road  
Mount Vernon, ME 04352

Customer ID: **322927**  
Certificate: **11-C-0017**  
Site: 001  
D E W HEAVEN

Type: ROUTINE INSPECTION  
Date: 29-AUG-2017

### 3.125(a)

#### FACILITIES, GENERAL.

The pool inside the black bear enclosure was in need of attention. The pump in the pool was broken, so the pool had not been cleaned for approximately one week. The water was dark in color and there was an accumulation of miscellaneous debris. Water in enclosures should be clean to ensure the health of the animals.

In the aoudad, Jacob sheep, and goat enclosure there was a small wood side shed being used for a shelter. A board had fallen off the side of the shed and was on the ground leaving 2 holes in the middle of the wall. Chicken wire mesh was loosely hanging from the top right side of the shed. All structures in enclosures should be maintained in good repair to prevent injury to animals.

In the badger enclosure, there are three spots along bottom perimeter of the enclosure that has exposed chain link mesh due to the badger digging. The exposed chain link should be covered to prevent injury to the animals.

\*\*\*Corrected By: September 7, 2017

This inspection and exit interview were conducted with facility representative.

#### Additional Inspectors

Baltrush Jan, Animal Care Inspector

Prepared By: GOWINS JESSICA, D V M USDA, APHIS, Animal Care
