Site: 001

WILDERNESS TRAILS ANIMAL
PARK INC

Type: ROUTINE INSPECTION

Date: 22-JAN-2025

3.150(a)

Facilities, general.

There were electrical cords on the countertop where the young Eurasian Eagle Owl in the room adjacent to the gift shop was perching. These cords were within reach of the animal and used for charging the communication radios, and to supply power to the guidance lights, a coffee maker and a microwave.

Electrical cords that the birds can access may cause injury or death if bitten or if the bird becomes entangled.

Housing facilities for birds must be designed and constructed so that they are structurally sound for the species of bird housed in them. They must be kept in good repair, protect the birds from injury, and restrict other animals from entering that may negatively affect the welfare of the birds within. Electrical cords must not be accessible to birds.

Corrected at time of inspection.

2.75(b)(1)

Records: Dealers and exhibitors.

There were no records of disposition for one bovine, one domestic rabbit, three fennec foxes, one capybara, two barbary sheep, one otter, one elk, one kangaroo, two prehensile-tailed porcupines, one green-winged macaw, one military macaw, three ostriches, one Moluccan cockatoo and one black swan. These animals were listed on the last animal inventory but were not present at this inspection. The facility had acquired a squirrel monkey since the last inspection but did not have acquisition records. Additionally, records were provided on this inspection for two tiger cubs acquired on 25SEP2024. These animals and records were not made available on the inspection conducted on 30SEP2024 and therefore APHIS officials were not provided the opportunity to inspect the required paperwork or animals.

The absence of acquisition and disposition records prevents the ability to trace and track animals in the event of an animal disease outbreak, and to ensure all parties that require a USDA, APHIS, AC license hold a current and valid license.

Every dealer other than operators of auction sales and brokers to whom animals are consigned, and exhibitor shall make, keep, and maintain records or forms which fully and correctly disclose the following information concerning animals other than dogs and cats, purchased or otherwise acquired, owned, held, leased, or otherwise in his or her possession or under his or her control, or which is transported, sold, euthanized, or otherwise disposed of by that dealer or exhibitor. The records shall include any offspring born or hatched of any animal while in his or her possession or under his or her control, to the extent that any identification or counting of offspring can be carried out without unduly disturbing nesting or
