United Vaccines Inc  
1131 Thousand Oaks Trail  
Verona, WI 53593

Customer ID: **40729**  
Certificate: **35-R-0122**  
Site: 003  
UNITED VACCINES INC

Type: ROUTINE INSPECTION  
Date: 15-APR-2019

### 3.138(a) CRITICAL

#### PRIMARY CONVEYANCES (MOTOR VEHICLE, RAIL, AIR, AND MARINE).

The facility transported mink on July 13, 2018. Four mink died in transit and one wasn't healthy upon arrival and was humanely euthanized. Necropsy findings on the euthanized mink and one of the passed mink supported heat stress to have been likely. The animals were transported within a trailer ventilated with ambient air. Heat stress indicates ambient conditions likely were too warm for the affected animals. The facility must ensure that transport methods used will protect animals' health and ensure the safety and comfort of the animals at all times.

Note: The facility recognized this incident and reported it to the IACUC. The IACUC has reviewed the incident and noted the importance of monitoring climate conditions prior to transport and the need to plan accordingly. Ensure corrective actions are taken to prevent further occurrences.

This inspection and exit interview were conducted with facility representatives.
