

## Inspection Report

Margaret A Willis  
606 Beamon Hollow Rd.  
Anderson, MO 64831

Customer ID: **35255**  
Certificate: **43-A-4850**  
Site: 001  
MARGARET WILLIS

Type: ROUTINE INSPECTION  
Date: 13-AUG-2015

### 3.1(b)

#### HOUSING FACILITIES, GENERAL.

There were tall weeds and grass inside the perimeter fence of the facility as well as trash and discarded materials. Tall grass, weeds and trash provide optimal breeding grounds for rodents and pests. The licensee shall control weeds and grass and keep the facility and surrounding area free from trash, clutter and discarded materials so as to facilitate cleaning of the premises and pest control, and to protect the health and well-being of the animals. TO BE CORRECTED BY: 8/17/2015

### 3.1(c)(3)

#### HOUSING FACILITIES, GENERAL.

The outdoor enclosures housing 6 adult dogs have a build-up of grime and hair along the edges of the enclosures and surrounding both the inside and outside of the shelter structure floor and walls. Additionally, the wash down area in front of the enclosures has waste material and hair at the edge of the gate of the first enclosure and overflowed from the drain trench on the front side. Adequate cleaning, including waste, hair and build-up removal as well as routine sanitization promotes the health of the animals and aids in the prevention of disease. The licensee shall spot-clean daily and sanitize accordingly to satisfy generally accepted husbandry standards and practices. TO BE CORRECTED BY 8/15/2015

This inspection and exit briefing was conducted with the licensee.
