### 2.40(a)(1)

#### Attending veterinarian and adequate veterinary care (dealers and exhibitors).

**\*\*Several species housed at the facility (genet, pig) were not included as part of the program of veterinary care. The facility should have a written program of veterinary care that reflects the current inventory of animals. It is the responsibility of the facility to develop and implement a written program of veterinary care with the approval of the attending veterinarian that reflects the current animal inventory.**

Correct by December 14, 2023

### 3.154

#### Environment enhancement to promote psychological well-being.

**\*\*During a review of facility records the environmental enhancement plan for the birds was not available. A species specific environmental plan should be considered, developed and documented with the approval of the attending veterinarian. An appropriate species specific environmental plan should be developed according to currently acceptable best practices and implemented by the facility with the approval of the attending veterinarian and available upon request by APHIS officials.**
