Certificate: 84-R-0013

Site: 001

BEL-REA INSTITUTE OF ANIMAL TECHNOLOGY

Type: ROUTINE INSPECTION

Date: 19-AUG-2020

2.31(c)(3)

INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

In the last two semiannual reports to the Institutional Official, there were multiple deficiencies noted from the program and facility reviews; however, there was no distinction of significant versus minor deficiency, no specific plan for correction, and no dates by which these deficiencies must be corrected. These aspects of the report ensure that the committee informs the Institutional Official of any program deficiencies, identifies facility needs, and, if present, animal welfare issues, as well as establishing a plan for correction of deficiencies. Animal welfare may be negatively impacted if a plan for correction of deficiencies is not developed and followed. All reports to the Institutional Official must identify departures from the regulations or standards, distinguish significant from minor deficiencies, and provide a reasonable and specific plan and schedule with dates for correcting each deficiency.

TO BE CORRECTED ON THE NEXT SEMIANNUAL REPORT.

2.31(e)(2)

INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

In the school's teaching protocol, the rationale for numbers of animals to be used is not given. The instructor proposing animal activity shall provide a rationale for the number of animals to be used for the review and approval by the IACUC. By not providing this rationale, an unnecessary amount of animals may be used for covered activity. Protocols must contain a rationale for the number of animals to be used.

TO BE CORRECTED BY 1 DECEMBER 2020.

3.125(a)

FACILITIES, GENERAL.

In the enclosure housing 3 goats, there is a wooden wall that makes up part of the chicken coop. The wall shows evidence of wear with chipped paint and has multiple nail heads protruding from the wood. This wall is accessible to the goats and could be a source of injury. Outdoor housing facilities shall be maintained in good repair to protect the goats from injury.
