Customer ID: 235  
Certificate: 31-R-0029  
Site: 001  
MIAMI UNIVERSITY

Type: ROUTINE INSPECTION  
Date: 07-DEC-2016

### 2.31(c)(3) REPEAT

#### INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

The semi-annual inspection report, dated 3/10/16, sent to the Institutional Official (IO) does not identify three deficiencies as either significant or minor. The semi-annual report to the IO list a total of five deficiencies found by the IACUC. Two of the deficiencies are listed as minor, but the remaining deficiencies have no designation of being either significant or minor. Additionally, two of the deficiencies have no plans for correction and one deficiency has no schedule with date for correcting. The report to the Institutional Official functions as an overall evaluation of the registrant's facilities and programs. It is the IO's responsibility to make sure all problems are addressed in a timely manner. Failing to adequately provide all the required information to the IO can ultimately lead to problems affecting animal welfare going uncorrected. This semi-annual evaluation must be complete and for any identified deficiencies must include a description of the nature and extent of the deficiency, the significance of the deficiency (significant or minor), and a specific plan and schedule with dates for correcting the deficiency.

This inspection and exit interview were conducted with the Director of Laboratory Animal Resources.
