PAWTUCKET, RI 02861

Customer ID: 7714  
Certificate: 15-C-0022  
Site: 001  
DAGGETT FARM

Type: ROUTINE INSPECTION  
Date: 20-OCT-2021

---

### 3.125(a)

#### Facilities, general.

Three of the vertical wooden boards of one outside wall of the goat barn above the hay rack had water damage near the roof overhang. The wooden boards were soft compared to the other boards when touched and the paint was peeling. There was also some damage to the same outside wall of the goat barn near the corner approximately 12"x18" in size. The outermost layer of the wood had been removed by the goats rubbing their horns on the wall and the unpainted interior layer of the wall board was exposed.

Outdoor housing facilities shall be structurally sound and shall be maintained in good repair. The Licensee needs to make repairs to the outside wall of the goat barn.

Correct by 11/26/21

This inspection and exit briefing were conducted 10/20/21 with facility representatives.
