Customer ID: **2151**
Certificate: **31-C-0002**
Site: 001
TOLEDO ZOO

Type: RE-LICENSE INSPECTION
Date: 07-DEC-2021

3.84(b)(2)

Cleaning, sanitization, housekeeping, and pest control.

The three Emperor Tamarins have an enclosure that is currently being sanitized on a rotational schedule to account for scent marking. However, the facility is currently only sanitizing half of the enclosure every 2 weeks, leaving all items cleaned and sanitized on a monthly basis. Although the attending veterinarian has approved these methods, the commonly accepted USDA standards for non-human primates is every 2 weeks. Ensuring the appropriate sanitization frequency of all surfaces is important for maintain animal health and preventing disease transmission. All indoor primary enclosures housing non-human primates must be sanitized at least once every 2 weeks and as often as necessary to prevent an excessive accumulation of dirt, debris, waste, food waste and excreta.

This is a 1st Re-License Inspection for a Class "C" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspection(s) or by 2/6/2022 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.
