AMOS AND KATIE STOLTZFUS

Type: RE-LICENSE INSPECTION

Date: 23-AUG-2021

---

### 3.28(c)(1)(iii)

### Repeat

#### Primary enclosures.

There was one guinea pig pen that did not provide the required amount of floor space. There were 138 weanling guinea pigs housed in a pen that measured approximately 7,156 square inches of floor space. Each weanling requires a minimum of 60 square inches of floor space. Total floor space required to house these weanlings is 8,280 square inches. There cannot be more than 119 weanling guinea pigs housed in an enclosure measuring 7,156 square inches.

Inadequate space can cause stress, crowding, and aggression in animals.

The licensee must ensure that all guinea pigs are provided with the minimum amount of floor space in order to avoid overcrowding and to support the health and well-being of the guinea pigs.

This is a 2nd Re-License Inspection for a Class "A" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 1 more inspection or by 10/2/21 when the license expires or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.
