Type: ROUTINE INSPECTION
Date: 12-MAY-2022

3.31(b)

Sanitation.

Housekeeping. There is a buildup of dust, dirt, and debris on shelves and stored items in the animal room. Rodent droppings were present on the shelf by the front door. Animal facilities must be kept clean to protect the animals and to maintain good husbandry practices. Ineffective cleaning and housekeeping can expose the animals to disease risks and health problems. Correct by cleaning shelves, dusting off stored items, and removing rodent droppings to prevent disease risks and health problems in the animal room. Correct by May 14, 2022.

3.31(c)

Sanitation.

Pest Control. Rodent droppings were present on the shelf by the front door. There were no pest control devices in use in this area. Failure to establish and maintain an effective pest control program can increase disease risks to the guinea pigs. Correct by establishing and maintaining an effective pest control program. In addition, clean shelves and stored items on shelves regularly to prevent pest and health problems. Correct by May 19, 2022.

This inspection and exit interview were conducted with the licensee.
