ADRIAN RABER

Type: ROUTINE INSPECTION
Date: 31-MAR-2016

2.75(a)(1)

RECORDS: DEALERS AND EXHIBITORS.

Currently the puppy records do not have the female information included, or a puppy number system that allows the puppies to be traced back to a specific female. The same numbers are used 1-15 for all puppies born to all females which makes it difficult to tell who had what puppy. There are 3 dogs missing on the Acquisition 7005 form of the inventory.

Complete and accurate records must be kept for the proper management and traceability of the regulated animals.

The licensee must have puppy numbers assigned to each puppy that can be traced to the mother of the litter. All Acquisition 7005 and Disposition 7006 records shall be filled out completely and updated with all animals sold or added to the inventory.

To be corrected by: April 2, 2016

Inspection and exit interview conducted with facility representative.
