ANIMALS FOR EDUCATION

Type: ROUTINE INSPECTION

Date: 14-DEC-2015

3.127(b)

FACILITIES, OUTDOOR.

The deer enclosure does not contain a shelter that would protect the animals from inclement weather. The inability to shelter from seasonal winter rains could cause discomfort to the animals and adversely impact their health.

The facility should ensure that deer housed at the facility have access to shelter that will adequately protect them from inclement weather.

Correct by December 19, 2015

An exit interview was conducted with a facility representative.
