STEPHEN YODER

Type: ROUTINE INSPECTION
Date: 02-DEC-2015

3.1(e)

HOUSING FACILITIES, GENERAL.

*** The food bin in the main kennel area is cracked and in disrepair. Open supplies of food and bedding must be kept in leak-proof containers with tightly fitting lids to prevent contamination and spoilage. This needs to be addressed for the health of the dogs and to protect their food supply.

Correct by: Dec 7, 2015

3.2(c)

INDOOR HOUSING FACILITIES.

*** There was not enough lighting in the whelping area to see puppies in the whelping boxes. The inspector had to use a personal flashlight to see the animals during the inspection process. It was an overcast day and the two windows on the outside wall do not allow enough light to diffuse throughout the room. This needs to be addressed so the dogs have a light cycle for their health and well being and so that the licensee can see and maintain cleaning and daily observation of the animals.

Correct by: Dec 14, 2015

3.6(a)(2)(10)

PRIMARY ENCLOSURES.

*** Some of the puppies in the whelping box are leaving the box and going out onto the wire mesh. This mesh is too big for their little feet and their feet and legs are falling through the wire mesh. This needs to be addressed for the safety of the puppies and to prevent injury.

Correct by: Dec10, 2015

3.11(a)

CLEANING, SANITIZATION, HOUSEKEEPING, AND PEST CONTROL.

Prepared By: ANDREA D AMBROSIO, A C I USDA, APHIS, Animal Care

Date:

Title: ANIMAL CARE INSPECTOR 6003

Received by Title: CERTIFIED MAIL # 7013 3020 0001 5673 2587

Date:
04-DEC-2015

Inspection Report

*** The whelping boxes are not being cleaned daily and as a result there was an accumulation of feces in the boxes and on the carpets. These boxes need to be spot cleaned daily and feces removed. In addition some of the carpets were overly wet and need to be replaced more frequently.

Correct by: Dec 5, 2015

An exit briefing was conducted with a facility representative at the time of the inspection and with the licensee via phone on Dec 4, 2015
