

## Inspection Report

---

Flamig Farms Inc  
7 Shingle Mill Rd / PO Box 246  
West Simsbury, CT 06092

Customer ID: **9261**  
Certificate: **16-C-0077**  
Site: 001  
Flamig Farms Inc

Type: ROUTINE INSPECTION  
Date: 27-MAR-2025

---

### 2.40(a)(1)

#### Attending veterinarian and adequate veterinary care (dealers and exhibitors).

The facility's attending veterinarian can not provide veterinary care to the birds. Lack of oversight by an attending veterinarian can negatively impact animal welfare if injuries, illnesses, and diseases are not treated under veterinary guidance. The facility must have formal arrangements with an attending veterinarian that provides adequate veterinary care to all of its animals. Correct by April 24, 2025.

### 2.40(b)(2) Direct

#### Attending veterinarian and adequate veterinary care (dealers and exhibitors).

A male turkey was observed by APHIS with reddened swelling on the left side of its neck. This turkey's respiratory rate and effort were elevated, and the breathing was audible. The attending veterinarian had not been consulted about this issue until the time of inspection. An increased respiratory rate and effort may be caused by a serious underlying respiratory disease. The facility must establish and maintain programs of adequate veterinary care that include the use of appropriate methods to prevent, control, diagnose, and treat diseases and the availability of emergency, weekend, and holiday care under the guidance of an attending veterinarian. Correct by March 27, 2025.

This inspection and exit interview were conducted with a facility representative.
