### 2.27(a)

#### Notification of change of operation.

The registrant is no longer located at the address on file and has not provided notification of change of address. During the attempted inspection, it was noted that the facility appeared vacant. The neighbor was contacted and confirmed that the registrant no longer lived at that address but did not have a forwarding address. Multiple previous attempts to contact the licensee by phone and text have gone unanswered. It is important that address and other contact information is kept up to date to facilitate timely contact and inspections by USDA. Correct by 9/15/23
