SANITATION.

The grain storage area has a large amount of spilled animal feed on the ground. This spilled feed can serve to attract pests that could be a potential source of disease for the animals that consume the feed. A large amount of bird feces was present in the area. Clean up this spilled feed in order to control the pests in the area.

Correct by: 11-5-16.

This inspection and exit interview were conducted with the facility General Manager.
