Type: RE-LICENSE INSPECTION

Date: 25-OCT-2021

3.131(a)

Sanitation.

In the outdoor pen containing the four goats and three sheep, there are four piles of composting feces. Three of the piles were approximately three to four feet in diameter and at least one foot tall. Feces can harbor disease and produce odors. Remove the composting feces and ensure the pen is maintained to prevent excessive accumulations of feces.

This is a 1st Re-License Inspection for a Class "C" license.

The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by 12/24/2021 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.
