Type: ROUTINE INSPECTION
Date: 07-NOV-2014

3.4(b)(4)

OUTDOOR HOUSING FACILITIES.

Sec. 3.4 Outdoor housing facilities. (b) Shelter from the elements. (4)

**** The temperature at time of inspections was 38 degrees Fahrenheit. The whelping building thermometer read 44 degrees Fahrenheit. The outside pens dogloos have carpet squares in the majority of them. Inside the whelping building only one of two pens had pine shavings for the dog and puppies to lay on. The lack of proper bedding allows the cold weather to impact the dogs ability to maintain their body temperature when the temperature drops below 50 degrees Fahrenheit. Dry clean bedding must be provided when the temperature is below 50 degrees Fahrenheit and additional dry clean bedding when the temperature falls below 35 degrees Fahrenheit and allows the animal to nest in.

To be corrected by 11-15-2014

Inspection and Exit interview conducted with facility representative.
