Customer ID: **44913**  
Certificate: **43-A-5457**  
Site: 001  
RICK & SHELLY KUHN

Type: ROUTINE INSPECTION  
Date: 06-JUL-2015

### 2.75(a)(1)

#### RECORDS: DEALERS AND EXHIBITORS.

Most of the licensee's Dogs on Hand records (APHIS form 7005) were missing information, including birthdates/ages of dogs, dates acquired, identification numbers, and the full address of the sellers. Properly completed acquisition records are necessary for identification of dogs to facilitate record-keeping requirements for inventory, disposition, transport, and healthcare. The licensee must update the Record of Acquisition and maintain the record on a regular basis so that it always has accurate information regarding acquisition, identification, and disposition for all dogs.

TO BE CORRECTED BY JULY 13, 2015.

### 3.1(c)(3) REPEAT

#### HOUSING FACILITIES, GENERAL.

Two enclosures, housing a total of 6 dogs, had shelters that had large cobwebs attached to multiple sides inside the shelters. The cobwebs were very large and were covered in dust and dirt. As the dogs jumped around inside the enclosures, their faces were contacting the cobwebs. The dirt and dust can harbor diseases that can affect the health of the dogs. The licensee must clean and sanitize all surfaces as often as necessary to satisfy generally accepted husbandry standards and practices.

### 3.6(a)(1)

#### PRIMARY ENCLOSURES.

The shelter in an outdoor enclosure, housing two Boston terriers, had a hole in its side where the dogs had chewed through the plywood. The hole was almost big enough for the dogs to stick their heads through. Shelters that are not structurally sound can result in dogs being injured by jagged edges, can result in entrapment of heads or legs, and can allow dogs to escape from the enclosure. The licensee must ensure that all primary enclosures are kept in good repair.

TO BE CORRECTED BY JULY 13, 2015.

### 3.11(d)

Prepared By: KONNIE PLUMLEE, D V M USDA, APHIS, Animal Care

Date:  
06-JUL-2015

Title: SUPERVISORY ANIMAL CARE SPECIALIST 6031

Received by Title: LICENSEE

Date:  
06-JUL-2015

## Inspection Report

---

### **CLEANING, SANITIZATION, HOUSEKEEPING, AND PEST CONTROL.**

There were a large number of flies inside the whelping building and throughout the outdoor facility. Flies can carry organisms that can cause diseases in dogs. The licensee must establish an effective program for the control of insects and other pests so as to promote the health and well-being of the animals and to reduce contamination by pests.

TO BE CORRECTED BY JULY 13, 2015

The inspection and the exit briefing were conducted with the licensee and Bill Heine-ACI.

### **Additional Inspectors**

Heine William, Animal Care Inspector
