Certificate: 23-R-0023
Site: 001
UNIVERSITY OF PENNSYLVANIA

Type: ROUTINE INSPECTION
Date: 03-AUG-2017

2.31(e)(3)

INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

Item IACUC 2.31 e 3

At the time of inspection protocol 803366 is a teaching protocol. Protocol involves various procedures such as rectal exams, restraint, nasogastric tubing. etc

The protocol does not indicate the limits per procedure or the number of attempts per animal or the number of students per animal.

The investigator needs to provide to the IACUC with a complete description for the proposed use of the animals as required by the regulation.

Correct by 9/15/2017

2.33(b)(5)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE.

Item IACUC 2.33 b 5

At the time of inspection 4 bottles of Enlon expired 4/2017 were found in SS at NBC.

Outdated drugs does not constitute adequate veterinary care with current established veterinary medical procedures.

Facility needs to review its monitoring procedures for drugs to insure outdated drugs are removed in a timely manner.

Facility corrected this item at the time of inspection by removing the drugs from the area for proper disposal.

3.125(a)

FACILITIES, GENERAL.

Item Facilities General 3.125 a

1) At the time of inspection some of the outdoor pens were constructed with a wood frame and sheet metal panels for the walls. There were three shelters (CMKH, CMKC, and HCTM) that had areas of the sheet metal wall where the edges of the sheet metal had become bent outward so that the edges were no longer flush with the wall. The

Inspection Report

upturned edges of sheet metal were sharp and could cause an injury to the nose or face of the animals.

2)The coral fence by the automatic water dispenser for heifer unit 2 had nails which were bent down but still had exposed sharp point which could injure an animal

Per this section of the regulations, outdoor facilities shall be structurally sound and shall be maintained in good repair to protect the animals from injury.

The research facility corrected these items during the inspection by repairing the bent upturned sheet metal edges in the three shelters as well as the removal of the nails so that all the edges were flush and no sharp edges.

Exit interview took place at the end of inspection with the Director and other staff members.

Inspection took place from 7/31-8/3/2017

Additional Inspectors

Mcintosh Ashley, Veterinary Medical Officer

Gladue Paula, Veterinary Medical Officer
