FACILITIES, GENERAL.

- In the arena enclosure in the rear of the park containing tigers there is a log shelter with the roof collapsing into the shelter. It has broken boards on the roof collapsing into the shelter. This broken board area is approximately 3 feet in length allowing animals contact with the collapsed roof. Facilities need to be maintained in good repair. Licensee must repair/replace the broken section of shelter roof to ensure the animals are safely contained and protected from potential injury. This was repaired during the inspection.

This inspection and exit interview were conducted with facility representatives.
