GLYN & ANN NOLAN

Type: ROUTINE INSPECTION
Date: 17-JUL-2014

2.40(b)(2) DIRECT

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

*****An adult, female Yorkshire Terrier, identification number 102873840, had abnormal left and right eyes. There was an area on the surface of the cornea of the left eye that was approximately 1/8 inch in diameter. This area was cloudy and milky. There was a mucopurulent discharge from the eye. The right eye was enlarged and misshapen. The eye globe was protruding more than normal and there appeared to be a slight stricture on the globe. The conjunctiva was reddened and swollen. There was also a mucopurulent discharge from the eye.

*****An adult, female German Shepherd, identification number 0A02205172, was non-weight bearing lame on the left rear leg. The knee of the animal was swollen to approximately two times normal size.

Eye conditions can be painful, can progress quickly, can result in loss of sight, and can be the result of injury or an underlying medical condition. Lameness can be the result of an injury or underlying medical condition.

The licensee must have these animals examined by a veterinarian by 5:00 p.m on July 18, 2014, to obtain accurate diagnoses and appropriate treatment plans for the issues cited above. The outcome of this consultation must be provided to the inspector upon request. This documentation should include the veterinary diagnosis, all diagnostic tests and the outcome of those tests that were performed by the veterinarian, any medications prescribed along with the dosing instructions, and entries on a log and/or calendar and/or animal health record that list when the medication is administered to the dogs.

There should also be an entry at the end of the treatment to document the health status and condition of the dog at that point, to indicate a time frame to address current issues that require further veterinary treatment, and the need for follow-up and any further veterinary care prescribed.

An exit briefing was conducted with a facility representative.
