CLUB

Type: RE-LICENSE INSPECTION

Date: 05-JAN-2023

2.126(a)(2)

Access and inspection of records and property; submission of itineraries.

The facility has documentation of previous attending veterinarian visits through 2022, however a written Program of Veterinary Care could not be located during inspection. A written program of veterinary care helps ensure that a licensed facility has veterinary care available for its animals. Correction: Ensure to find the Written Program of Veterinary Care or work with the attending veterinarian to have it re-written and approved so that it can be reviewed by APHIS official(s) in the next re-license inspection.

This is a 1st Re-License Inspection for a Class C license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections by March 6, 2023 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.
