2.40(b)(2)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

A female shihtzu/poodle cross (USDA #106) was observed to favor her left front foot when walking. Close observation revealed a red dime-sized swollen sore between her toes on the front left foot. Swollen foot sores can be painful if not addressed appropriately. This problem had not been communicated to the attending veterinarian. Prompt communication of any health problem must be made with the attending veterinarian so that the problem can be assessed and appropriately treated.

Correct by 3/1/14.

Inspection and exit interview conducted with facility representative.
