County of Essex Turtle Back Zoo

Type: ROUTINE INSPECTION

Date: 27-JAN-2023

3.131(d)

Sanitation.

Numerous song birds were observed flying inside of the farm barn which houses the goats, sheep, alpaca, pigs, cows and the donkey. These birds were observed entering holes in the spray on insulation on the ceiling and walls of this building/barn. These birds are creating these holes and using them as nesting areas. These avian pests leave their droppings as well as bits of insulation in the water buckets and in animal enclosures below. A method to control these birds should be established to prevent contamination of the feed, water buckets, bedding and the animals.

A safe and effective program for the control of insects, ectoparasites, and avian and mammalian pests shall be established and maintained.

TO BE CORRECTED BY: MARCH 13, 2023

This inspection and exit briefing were conducted with the facility representatives.
