PARK MANAGEMENT
CORPORATION

Type: ROUTINE INSPECTION

Date: 12-OCT-2022

3.101(a)(3)

Facilities, general.

Multiple areas of cracked and peeling paint as well as exposed, unsealed broken or chipped concrete were observed above the water line in all 4 of the dolphin pools of the original "Toyota" stadium. Although there are many areas in which the concrete and paint have been repaired, multiple areas were still noted that needed attention. Cracked and/or broken concrete as well as chipping paint could possibly constitute a health hazard to the animals if they were to fall into the pools and be ingested, and does not facilitate cleaning and disinfection. All surfaces must be maintained in good repair as part of a regular, ongoing maintenance program.

Correct by 4 November 2022

This inspection and exit interview were conducted with Animal Care staff.

Additional Inspectors:

William Campbell, VETERINARY MEDICAL OFFICER
