GREEN MEADOWS FARM

Type: ROUTINE INSPECTION

Date: 12-JAN-2016

2.40(x)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

The licensee has acquired a new attending veterinarian, but this veterinarian has not completed a written Program of Veterinary Care.

The current veterinarian has indicated on a receipt for services on May 29, 2015 that the sheep, goats & llamas receive a CDT vaccination. None of these animals have received the vaccination to date.

Each exhibitor shall employ an attending veterinarian under formal arrangements. These arrangements shall include a written program of veterinary care. Each exhibitor shall also establish and maintain programs of adequate veterinary care which includes the appropriate methods to control diseases as the veterinarian recommends in that program.

Correct by February 1, 2016

2.75(b)(1)(3)

RECORDS: DEALERS AND EXHIBITORS.

On all of the acquisitions of mammals during the past year from private individuals (non USDA licensed sources), the licensee did not obtain that person's driver's license number and vehicle tag number.

On all acquisitions from private individuals (non USDA licensed sources), you must record that person's driver's license number AND vehicle tag number.

Correct immediately on next acquisition.

2.131(b)(1)

HANDLING OF ANIMALS.

"Bell" (bovine) has a halter that is on 24 hrs. a day. The bridge of her nose has callused due to the rubbing of this halter against her nose bridge.

Inspection Report

This continued rubbing of the halter against her nose can lead to further trauma, physical harm & further discomfort.

Handling of animals shall be done in a manner that does not cause trauma, stress, physical harm, or unnecessary discomfort.

Correct by January 13, 2016

3.125(c)

FACILITIES, GENERAL.

Several toxic chemicals, sprays, & insecticides were being store directly over bags of dry feed.

These items can potentially fall, leak, or drip onto the feed and contaminate it. Storage of food shall be stored in a manner that adequately protects it, and minimizes the risk of contamination.

Correct by January 13, 2016

The exit interview was conducted with the manager.
