Henderson, NV 89014

Customer ID: **33308**  
Certificate: **88-C-0209**  
Site: 001  
ZUZANA KUKOL

Type: ROUTINE INSPECTION  
Date: 02-MAY-2017

---

### 3.130

#### **WATERING.**

The hard plastic water receptacle used for tiger, Princess, had heavy wearing with roughened edges and grooves along the top with an accumulation of dirt and debris. Water receptacles with heavy wearing and grooves can trap bacteria or other potentially harmful organisms and cannot be properly sanitized.

A system should be in place to ensure water receptacles are kept clean and sanitary as required or replaced as needed for the health and well-being of the animals.

Correct by 05/08/2017.

This inspection and exit briefing were conducted with a facility representative.
