TIME AND METHOD OF IDENTIFICATION.

There are 3 adult Corgis and 3 Pomeranians' that do not have collars, and are over 4 months of age. Two Pomeranians were born in March of 2017 (7 mnths old), and one was born in April of 2017 (6 mnths old). While the Pomeranians did have a cage card present, they are required to have a collar after 4 months of age.

It is important to have proper ID on all regulated animals for proper management and traceability.

All dogs over 4 months of age should be identified by a tag/tattoo or microchip.

To be corrected by: October 8, 2017

2.75(a)

RECORDS: DEALERS AND EXHIBITORS.

All of the puppy records are missing the dates of sale/transfer/donated or dates died of all puppies that are no longer on the property. There are several puppy records that could not be found that had Disposition (7006) records provided. There are 3 corgis' and 3 Pomeranian's that are not listed on the Record of Acquisition(7005).

Complete are accurate records are required for proper management and traceability of the regulated animals.

All puppy records should have the date of sale/transfer/donation and death recorded, and there should be puppy records for every litter born on the property available during inspections. All inventory/record of acquisition should be up to date on all regulated animals on the property and dates of those who are no longer at the facility.

Inspection Report

HOUSING FACILITIES, GENERAL.

There are 12 doggy door exits that need to be re-caulked where there are gaps between the wall and insert fiberglass. The gaps surrounding the doors is an area where dirt and debris can collect and need to be replaced or repaired when the caulking fails or is no longer present.

Open cracks or surfaces inside of the primary enclosures that are not sealed can provide an area where dirt/grime can collect which can hold bacteria.

All surfaces and enclosures must be kept in good repair and any cracked or broken surface should be repaired or replaced.

To be corrected by: October 30, 2017

Inspection and exit interview conducted with facility representative.
