Weleetka, OK 74880

Customer ID: **6021049**

Certificate: **73-B-1894**

Site: 001

Abercrombie Parakeets and Finch
LLC

Type: ROUTINE INSPECTION

Date: 25-NOV-2024

3.153(a)(1)(iii)

Primary enclosures.

- Six budgies had escaped their enclosures and were perched in the rafters above the bank of cages. Escaped birds are at risk of injury and could potentially get out of the facility altogether. All enclosures must safely contain the birds, and precautions should be taken when transferring birds between cages to prevent escapes.
Correct from 25 November 2024 onward.

3.153(a)(2)

Primary enclosures.

- Multiple cages had no perches at all, or an inadequate number of perches for the number of birds per cage. All birds that demonstrate perching behavior must have a sufficient amount of appropriate perching space available. All birds must be able to utilize the perches simultaneously, if they so desire.
Corrected at time of inspection

This inspection and exit interview were conducted with facility representative.
