#### Contingency planning.

The licensee has started the contingency plan, but has not completed it. It doesn't detail the various types of emergencies that could happen along with what the action plan would be in those types of situations. Not having an up-to-date contingency plan doesn't ensure the licensee will be prepared should an emergency or disaster happen. The licensee must complete the contingency plan in accordance with the requirements outlined in the Animal Welfare Act. Correct by 4/28/24.

This inspection and exit interview were conducted with the licensee.

End of report.
