Type: ROUTINE INSPECTION
Date: 19-APR-2017

2.40(a)(1)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

The Program of Veterinary Care could not be located at the time of the inspection.

The written and signed Program of Veterinary Care, (POVC), is a document that may be needed by the licensee when preventive veterinary care is needed. This should be available at the facility where the animals are kept. The POVC must be followed by the licensee and made available at time of USDA inspection to ensure that adequate veterinary care is provided to the animals.

If copies of the original POVC are not found or provided by your veterinarian then a new POVC (blank provided by inspector on 04/19/2017) must be completed and signed by your veterinarian.

Correct by May 3, 2017

3.53(c)(2)

PRIMARY ENCLOSURES.

One female rabbit (estimated to be approx. four pounds) with a litter of 6 bunnies were housed in an enclosure that measured: 17 in. x 29.5 in. =501.5 square inches. Female rabbits less than 4.4 lbs. with a litter must have a total of 4 square feet or 576 square inches. Female rabbits 4.4 to 8.8 lbs. with a litter must have a total of 5 square feet.

Adequate enclosure space is needed to give extra room for exercise and hygiene needs as bunnies grow.

The nursing mother and her young must be provided a sanitized enclosure that provides at least 4 square feet of floor space.

Correct by May 3, 2017.
