Certificate: **65-C-0563**
Site: 001
MCCLAIN LODGE LLC

Type: ROUTINE INSPECTION
Date: 21-JUN-2023

2.75(b)(1) Repeat

Records: Dealers and exhibitors.

Records of acquisition and disposition were incomplete for animals recently acquired or sold. Disposition records were missing for a group of animals who left the facility on June 1, 2023 including a coati and a wallaby. Records of acquisition were incomplete for sheep and goats recently acquired by the facility. The incomplete records lacked the name, address, and/or USDA license number or driver's license number for buyers and sellers of the animals. Accurate recordkeeping is important for veterinary oversight and animal traceability in the event of disease outbreaks or stolen animals. Correct by maintaining accurate and complete records of acquisition and disposition in accordance with the Animal Welfare Act.

3.80(a)(2)(i)

Primary enclosures.

An enclosure housing 3 ring-tailed lemurs (2 adults and 1 juvenile) contains sharp points that may injure the primates. The inner surface of the enclosure wall closest to the feed shed has wires with sharp points and some gaps where sections of wire/mesh do not come together fully. Sharp points and gaps may cause a lemur to become entangled or scratched. Correct by 6/30/23 by ensuring that lemurs and any other nonhuman primates are housed in enclosures that do not contain sharp points or gaps where animals could become entangled.

3.127(d)

Facilities, outdoor.

The primary enclosure housing 4 kangaroo and 4 wallaby is not enclosed by the perimeter fence. A perimeter fence is important for containing the animals if they escape from their primary enclosure, and is important for preventing contact between the kangaroos and wallaby's and any unauthorized people or stray animals. Correct by 7/21/23 by housing kangaroo and wallaby in an enclosure that is contained within a perimeter fence that is at least 6 feet tall and at least 3 feet away from the primary enclosure, or by obtaining a variance approved by the Administrator.

This inspection and exit interview were conducted with the Safari Park Manager.
