### 2.31(c)(3)

#### INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

During the November 2016 facility inspection, a minor deficiency was noted by the IACUC and included in the meeting minutes. The deficiency was not included in the Institutional Official (IO) report generated from that inspection. A corrective plan with dates was not reported to the IO. The deficiency involved securing the oxygen canisters. At inspection today, it was noted some oxygen canisters appeared unsecured. Reporting deficiencies facilitates accountability and helps assure corrections will be made. Animal welfare may be impacted when deficiencies go uncorrected. If program or facility deficiencies are noted, the IO reports must contain a reasonable and specific plan and schedule with dates for correcting each deficiency.

### 2.31(d)(5)

#### INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

The animal use protocol was last reviewed by the IACUC in December 2015. Though a review of the protocol has recently started, it was not reviewed by the IACUC in 2016. IACUC review of animal activities help ensure optimal animal welfare. The IACUC shall conduct continuing reviews of animal use protocols at appropriate intervals as determined by the IACUC, but not less than annually.
