CURTIS MARTIN
1860 BOWMANVILLE ROAD
MOHNTON, PA 19540

Customer ID: **334857**
Certificate: **23-A-0625**
Site: 001
CURTIS MARTIN

Type: ROUTINE INSPECTION
Date: 20-OCT-2021

3.31(a)(1)

Sanitation.

Enclosure # 10 housing 11 adult & 3 offspring guinea pigs and enclosure # 16 housing 11 adult and 4 offspring guinea pigs had an excessive amount of feces and soiled bedding. The licensee stated that the enclosures are cleaned every two weeks and were last cleaned on 10/9/21. The cleaning process (method & frequency) utilized is not effective in removing this fecal accumulation and soiled bedding inside the enclosures. Ineffective cleaning and frequency exposes the animals to potential disease hazards such as bacterial, fungal, and viral diseases. Primary enclosures must be cleaned often enough to prevent an accumulation of feces and soiled bedding. In addition, enclosures must be sanitized at least once every 2 weeks. Correct by cleaning enclosures on a more frequent basis to avoid accumulations of feces and dirty/soiled bedding. Correct by October 21, 2021.

This inspection and exit interview were conducted with the licensee.
