#### Environment enhancement to promote psychological well-being.

The facility does not have an environmental enhancement plan in place to promote the overall psychological well-being of the birds at the facility. Failure to establish and maintain an EEP can result in birds not receiving adequate enrichment which can lead to behavioral, social, health, and other psychological problems.

The facility must develop, document and follow a species appropriate plan for environmental enhancement adequate to promote the psychological well-being of birds. The plan must be approved by the attending veterinarian, and at a minimum must address social grouping, environmental enrichment, special considerations, restraint, and exemptions to the plan and be in accordance with currently accepted professional standards.

Correct by 26 February 2025

This inspection and exit interview were conducted with the facility representative.
