### 3.125(a)

#### Facilities, general.

The primary enclosure for the hedgehog has a bar the is rusted on the side of the enclosure just above the height of the hedgehog. It is creating sharp points that the hedgehog could reach while standing on its hind legs.

The facility must be constructed of such material and of such strength as appropriate for the animals involved. The indoor and outdoor housing facilities shall be structurally sound and shall be maintained in good repair to protect the animals from injury and to contain the animals. All housing facilities for animals must be structurally sound and maintained in good repair. To be corrected by October 24, 2023

This inspection and exit interview were conducted with a facility representative.
