2.40(a)(1)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

2.40 (a) (1) There was no written Program of Veterinary Care (PVC) available at the time of inspection. In order to ensure problems of animal health are addressed adequately, there needs to be a written PVC. The written PVC shall include the species utilized in regulated activities, preventative care, common health problems they may have and how these will be addressed by the licensee and the Attending Veterinarian.

Ensure that the formal arrangement with the Attending Veterinarian includes a detailed written Program of Veterinary Care.

3.8

EXERCISE FOR DOGS.

3.8 There was no written exercise plan for the 29 adult dogs at the time of inspection. All dogs were observed to be housed in enclosure meeting the minimum standards for exercise, however there was no documentation that had been reviewed and signed by the attending veterinarian. The written exercise plan must be developed and followed to ensure the dogs are receiving adequate exercise.

Maintain and be able to provide for review a documented exercise plan explaining how the requirements are being met for dogs that are individually and group housed at the facility.
