2.31(c)(1)

Institutional Animal Care and Use Committee (IACUC).

The IACUC has not completed a review of the facility's program for humane care and use of animals within the last six months. IACUC records reviewed during this inspection indicate that IACUC semi-annual reviews of the facility's program for the care and use of animals last occurred in August of 2022. Regular reviews are necessary to ensure IACUC oversight of the program and to ensure the welfare of the animals being used in research by the facility. With respect to activities involving animals, the IACUC shall review at least once every 6 months, the research facility's program for humane care and use of animals. Correct by ensuring the IACUC reviews the facility's program for humane care and use of animals at least once every six months. Correct by July 21, 2023.

2.31(c)(2)

Institutional Animal Care and Use Committee (IACUC).

The IACUC has not completed an inspection of the animal facilities within the last six months. IACUC records reviewed indicate that IACUC semi-annual inspections of the animal facilities last occurred in August of 2022. Regular inspections are necessary to ensure IACUC oversight of the facility and to ensure the welfare of the animals being used in research by the facility. With respect to activities involving animals, the IACUC shall inspect at least once every six months, all of the research facility's animal facilities, including animal study areas. Correct by ensuring the IACUC inspects the animal facilities at least once every six months. Correct by July 21, 2023.

3.13(a)

Veterinary care for dogs.

The written Program of Veterinary Care (PVC) for dogs has not been updated to reflect the directions of the current attending veterinarian. The facility has an agreement with a veterinarian, however, the PVC has not been reviewed and signed by the individual. Failure to maintain a documented and signed PVC can result in a lack of understanding and direction in the general health and care of the animals. A written Program of Veterinary Care (PVC) for dogs must be established and maintained so that the facility has a current plan that provides for adequate preventative care and treatments as deemed necessary. The plan must include all required components as listed in the Animal Welfare Act and Animal Welfare Regulations, Part 3, Subpart A, Section 3.13. Correct by July 5, 2023.
