### 2.31(e)(2)

#### Institutional Animal Care and Use Committee (IACUC).

Proposal #176 has a rational for why the use of animals is necessary but does not have a rational for the total number of animals to be used. The IACUC must review the rational for the proposed number of animals to be used to help minimize the use of animals. Ensure that IACUC-approved proposals/protocols contain a rational for the number of animals to be used so that the IACUC can review the appropriateness of the proposed animal use.
