Type: ROUTINE INSPECTION

Date: 08-SEP-2025

3.13(a)(3)

Veterinary care for dogs.

The facility has not administered rabies vaccinations for 6 adult dogs (microchip numbers 4873, 1880, 9750, 8226, 0049, 6071) in accordance with the schedule outlined in the program of veterinary care. Failure to follow a written and Attending Veterinarian approved schedule for vaccinations of contagious and/or deadly diseases can result in an increased risk of disease exposure in the dogs. The facility must ensure that vaccinations for contagious and/or deadly diseases of dogs (including rabies, parvovirus and distemper) and sampling and treatment of parasites and other pests (including fleas, worms, coccidia, giardia, and heartworm) in accordance with a schedule approved by the attending veterinarian are administered. Correct by, 22-September-2025

This inspection and exit interview were conducted with a Facility Representative.
