Monroe Hochstetler
31479 TR 231
Fresno, OH 43824

Customer ID: **331228**
Certificate: **31-A-0487**
Site: 001
Monroe Hochstetler

Type: ROUTINE INSPECTION
Date: 18-SEP-2025

3.3(e)(1)

Sheltered housing facilities.

Five enclosures in a sheltered housing facility, containing a total of 7 dogs, contain surfaces that are not impervious to moisture. The indoor flooring of one enclosure was made of poured concrete, and wetness could be seen seeping into the concrete. All five of the outdoor portions of the enclosures have poured concrete flooring and cinder blocks encompassing approximately 3 ft of the building wall. The poured concrete floors and cinder blocks are not sealed as there is evidence of wetness at the junctures of these structures as well as in the middle of the flooring where the dogs have urinated. Surfaces must be maintained so that they remain impervious to moisture in order to facilitate proper sanitization. Correct by ensuring surfaces that come into contact with the dogs are impervious to moisture. Correct by: October 30, 2025.

This inspection and exit interview were conducted with the licensee.
