Type: ROUTINE INSPECTION
Date: 04-DEC-2025

2.131(b)(1)

Handling of animals.

Animals were not handled by the licensee to prevent behavior stress. A TikTok video shows the licensee slowly panning the room with a toy gun until two spider monkeys resting in a animal bed come into view. When the spider monkeys come into view, the licensee activates the toy gun so that it makes a rattling noise. As soon as the rattling noise starts the spider monkeys jump up from rest and start moving about in the area of their bed. The total length of the video is 7 seconds. The amount of time that gun is activated and the spider monkeys are moving about in the video is about 3 seconds. At the time of the inspection, the licensee acknowledged making the TikTok Video described above, stated that the gun in the video was a toy gun, and described the reaction of the spider monkeys as being startled.

Handling animals in a manner that causes behavioral stress can adversely impact their health and wellbeing.

Handling of all animals shall be done as expeditiously and carefully as possible in a manner that does not cause trauma, overheating, excessive cooling, behavioral stress, physical harm, or unnecessary discomfort.

To be corrected from this day (12/5/2025) forward.

This inspection and exit interview were conducted with the licensee.
