TUCSON, AZ 85743

Customer ID: **3442**

Certificate: **86-C-0094**

Site: 001

ARIZONA-SONORA DESERT
MUSEUM

Type: ROUTINE INSPECTION

Date: 29-DEC-2025

3.127(d)

Facilities, outdoor.

The effective height of eight feet of the perimeter fence has been reduced due to two adjacent piles of dirt backfill and concrete blocks on the interior side of the fence. The height of the piles may allow regulated animals to breach the perimeter fence if they are not primarily contained. The perimeter fence must be constructed so that it protects the animals in the facility by restricting animals and unauthorized persons from going through it or under it and having contact with the animals in the facility, and so that it can function as a secondary containment system for the animals in the facility.

Correct by 31 March 2026.

This inspection and exit interview were conducted with the facility representatives.
