Customer ID: **32360**  
Certificate: **31-C-0211**  
Site: 004  
Wild Acres Ranch

Type: ROUTINE INSPECTION  
Date: 10-SEP-2025

---

### 3.127(d)

#### Facilities, outdoor.

The facility does not have a complete perimeter fence surrounding the outdoor housing areas. The rear section of a primary enclosure that is currently housing 3 grey kangaroos is not surrounded by a perimeter fence. This section of the enclosure is facing a public road and could allow access to the animals.

The perimeter fence must be constructed so that it protects the animals in the facility by restricting animals and unauthorized persons from going through it or under it and having contact with the animals in the facility, and so that it can function as a secondary containment system for the animals in the facility. It must be of sufficient distance from the outside of the primary enclosure to prevent physical contact between animals inside the enclosure and animals or persons outside the perimeter fence. Such fences less than 3 feet in distance from the primary enclosure must be approved in writing by the Administrator.

Correct by 10 October 2025

This inspection and exit interview were conducted with the facility representative.
