

Inspection Report

ENOS GRABER
21313 NOTESTINE ROAD
WOODBURN, IN 46797

Customer ID: **43296**
Certificate: **32-A-1048**
Site: 002
Enos Graber

Type: ROUTINE INSPECTION
Date: 04-SEP-2025

2.50(a)(2)

Time and method of identification.

The facility does not currently identify puppies at birth. A microchip is used at approximately 8 weeks of age, but no ID number nor cage card is assigned or maintained prior to this time. It is difficult to verify inventory without early identification and record maintenance. All puppies on the premises shall be identified at birth by an acceptable method, such as the use of ID numbers and cage cards.

Correct by: September 15, 2025

3.13(b)

Veterinary care for dogs.

Records of heard health and individual treatments are incomplete. Though there are records for some routine vaccinations, other deworming and heartworm preventions given to the dogs have not been recorded. Topical treatments recently given to a few of the dogs for mild dermatitis have also not been recorded. Medical records help assure optimal animal health is maintained. Licensee must keep copies of medical records for dogs and make the records available for APHIS inspection

Correct by: September 15, 2025

This inspection and exit interview were conducted with Licensee.
