

Inspection Report

Magnolia Wilds LLC
11342 Hwy 955 E
Ethel, LA 70730

Customer ID: **6022721**
Certificate: **72-C-0251**
Site: 001
Magnolia Wilds LLC

Type: ROUTINE INSPECTION
Date: 09-DEC-2025

2.40(b)(2)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

Upon inspection, there were several expired drugs (Meloxicam, Metronidazole, and Ponazuril) maintained with other medications currently in use at the facility for the animals on hand at the facility. The medicated drugs had expired in June 2025.

Expired drugs may have lost their strength and the effect of the drugs may be unpredictable, potentially leading to injury, illness or death. The facility must not use expired medications and must use appropriate methods to prevent, control, diagnose, and treat diseases and injuries

Correct by: This incident was corrected during inspection.

3.153(a)(1)(iii)

Primary enclosures.

During inspection, it was noted that there were two chickens outside of their primary enclosure. The facility representative reported that the chickens routinely escape from the enclosure during cleaning procedures. Staff were not attempting to return any of the chickens to their primary enclosure at the time of inspection.

Primary enclosures that do not securely contain birds and lead to bird escapes put birds at a high risk of predation and injury.

Primary enclosures must be constructed and maintained so that they contain the birds securely.

Correct by: This incident was corrected during inspection.

3.158(b)(1)

Cleaning, sanitization, housekeeping, and pest control.

At the time of inspection, the floor and cage space of the Mexican green conure enclosure needed cleaning. Excreta has built up in multiple areas especially under the perches, floor and side panels. Staff stated that the areas are cleaned daily,

Inspection Report

however, there was excessive waste buildup present during inspection. Regular cleaning is necessary to prevent excessive accumulation of feces and to reduce disease hazards, insects, pests and odors. Excreta accumulations must be removed from primary enclosures.

Correct by: December 16, 2025

This inspection and exit interview were conducted with the facility director.

Additional Inspectors:
