Certificate: **58-C-1324**  
Site: 001  
Abbie Hurst

Type: ROUTINE INSPECTION  
Date: 07-JAN-2026

---

### 2.75(b)(1)

#### Records: Dealers and exhibitors.

At the time of the inspection, acquisition and disposition records maintained by the licensee did not fully and correctly disclose all the required information regarding animals purchased, acquired, owned, held, leased or otherwise in the licensee's possession. The following records of acquisition/disposition were incomplete:

- 1) There were no dates of disposition for the 21 deaths that had occurred since licensure
- 2) For the 2 chinchillas, 10 African soft fur rats, and 16 Button Quail there is no date of acquisition, name, address or vehicle/driver's license number for who donated the animals.
- 3) There are 27 African soft fur rats that do not have any acquisition record.

Accurate and well-maintained records of acquisition and disposition of animals is critical to ensure a thorough inspection, to rapidly identify and trace animals in a potential disease outbreak, to make sure all animals are accounted for, and to verify animals at the facility receive adequate veterinary care.

The license shall make, keep, and maintain records or forms which fully and correctly disclose the information listed in 2.75(b)(1)(i)-(vii) concerning animals (other than dogs and cats) purchased or otherwise acquired, owned, held, leased, or otherwise in his or her possession or under his or her control, or which are transported, sold, euthanized, or otherwise disposed of by the licensee. The records shall include any offspring born or hatched of any animal while in his or her possession or under his or her control, to the extent that any identification or counting of offspring can be carried out without unduly disturbing nesting or rearing activities.

To be corrected by January 23, 2026.

This inspection and exit interview were conducted with Facility representatives.
