Customer ID: **3452**

Certificate: **86-C-0082**

Site: 001

Prescott Animal Park Association

Type: ROUTINE INSPECTION

Date: 17-DEC-2025

---

### 3.75(c)(1)(i)

#### Housing facilities, general.

There is excessive red-orange rust covering the chain link ceiling in the sheltered enclosure for 2 adult Ring-tailed lemurs ("Buffy" and "Oliver"). The ceiling is partially covered by a tarp that is likely a site for moisture and condensation accumulation that has resulted in the development of rust over time. One of the animals was observed to come into contact with the rust by using the chain link ceiling as hand and footholds to climb down from an elevated structure. Exposure to rust may cause veterinary care issues in animals. Any surfaces that come in contact with nonhuman primates must be free of excessive rust that prevents the required cleaning and sanitization, or affects the structural strength of the surface.

Correct by 15 February 2026.

This inspection and exit interview were conducted with the facility representative.
